PERSONAL PROFILE

Multilingual full stack web developer with business proficiency in Spanish, French and Italian.

An excellent problem solver with a passion for debugging. A fast learner who is eager to continue developing new skills.

An excellent communicator with strong interpersonal skills, confident in communicating complex information in a clear and concise manner.

Highly motivated and goal-driven with a strong work ethic and desire to excel in all areas of professional and personal life.

TECHNICAL SKILLS

Proficient in:

FRONT-END
- React.js
- Redux
- HTML + CSS
- JavaScript
- jQuery
- Bootstrap
- Handlebars

BACK-END
- Node.js
- GraphQL
- Express.js
- MySQL
- MongoDB
- Apollo Server

PROJECTS

Band Match || Social App

Github Repo Link   Live App Link

A social app allowing users to connect with musicians to collab, make music and book gigs. Built with React.js on the front end, Apollo server on the backend, with GraphQL and MongoDB.

Dish Up || Meal Planning app

Github Repo Link   Live App Link

A full-stack app using node.js with a MySQL database and express server, node-fetch to make external API calls, and handlebars on the front-end, combined with vanilla JavaScript, jQuery, HTML and Bootstrap CSS,

Golden Shoe || E-Commerce App

Github Repo Link

A full-stack project, built with React.js, Apollo server, GraphQL and MongoDB. Built as a case study demonstration, therefore some functionality is missing but I have plans to build fully in the future.

EDUCATION

Full-stack Software Development Certificate

University of Birmingham | Feb 2021 - Sept 2021
